# Opener: Double Blind Freeze

# Double Blind Freeze

Double Blind Freeze is an opening/ closing game that has players do a quick two person scene. The game starts off with both teams in a line with their backs facing the audience. Two players from opposing teams come out from the center of the line and do a simple scene together. When the ref blows the whistle, the players onstage have to freeze in whatever position they were in. Then, the next two players from inside the line come up and take those positions. They then start the scene in that position.

# Genre Replay

This game starts with 4 players doing a basic set up scene , but then the players have to 'replay' the same scene, this time in a different genre. The genre could be anything ranging from romance to horror. Players will be given around 3 to 4 genres to do the scene in. The dialogue in the scene can change, but keep the storyline loosely the same.
